Stress-free Weddings

Congratulations on your engagement!

Iplanuparty (*IPUP*) would be delighted to help you take the stress out of planning your wedding day.

IPUP makes planning your wedding easy, whether it is a lavish reception for 200 guests, or an intimate dinner for 30 guests, *IPUP* is here to help.

IPUP is passionate about helping you create your perfect day, while keeping it within your budget.

As couples begin thinking about their wedding, they are often confused as to how much to spend, where to obtain specialised services, and how to choose vendors. These worries often mount as quickly as the cost of the wedding. After the euphoria wears off and the reality settles in, it's sometimes a shock to discover how much preparation is involved. Couples are faced with decisions about everything from invitation wording to planning their honeymoon, and also find it can take a lot of their spare time to organise the wedding. As a qualified wedding planner, I am experienced in negotiating contracts with caterers, florists, photographers, and other suppliers, which saves valuable time and money. The wedding planner can take advantage of discounts not available to private parties and avoid costly mistakes, while turning your dreams into reality.

The average wedding can take more than 100 hours just to plan. With today's hectic lifestyles, you may not have time to compare all the options, making sure you get the best deal, and make sure all the details are in place. As a wedding planner I am not here to make decisions for you, but to guide and assist you in making informed decisions. My training, knowledge, and experience will turn your dreams and expectations into reality. I want to host a beautiful and distinctive event which you can enjoy. I will save you time and enable you to get the most for your money!

The following wedding packages have been designed to take the stress out of planning your wedding day. I can do a little or a lot, the choice is yours.
